ANENT THE CITY STREETS.

Editor Gazette-News:—Mr. Jolley in a recent issue of his paper comments on the material used in repair on Beach street, stating that material too costly to use on a specimen block of street is too costly for use in road making—a proposition which is true, if such was the case. But this statement is not true, as he evidently misunderstood the circumstances attending the cost of that particular lot of material which was rock broken by hand, and was the surplus left from the material used in concrete work on Ridgewood bridge repair. This material if used on the streets in large quantities, prepared by use of machines, would, in my opinion, be the cheapest of any material, considering its lasting qualities, that we could make use of.

Broken stone properly prepared and laid makes the best and most lasting road known. The course rock makes a foundation which keeps the bed thoroughly drained, the finer grades a surfacing which when properly rolled gives a smooth, hard and comparatively free from dust surface, not to be obtained from any other material within our reach.

The question of the ability of the city to buy the machines to prepare and lay a material of this kind is yet to be determined by the electors, and should be considered from the standpoint of economy, taking the cost of streets per foot made of such material as is now used, their average life, cost of repair, together with their general condition comparing them with like streets made of rock, the interest on cost of machines, and the ability of the city to pay principle without extra taxation to meet these demands. And if these problems can be solved I think the rock streets will be assured.

THE OLD, OLD STORY.

Work is at last to begin in earnest on the completion of the East Coast Canal, between the Halifax and Matanzas Rivers. Geo. F. Miles, general manager of the company, has just returned from Beaufort, N. C., where he purchased two large and capable dredges. He was accompanied on the trip by Capt. Jim Hinton, an expert mechanic, who made a thorough inspection of the dredges.

Arrangements are now being made to secure a towboat to bring the dredges down the coast. One of them will be put to work on the north and one at the south end of the cut. It is understood that the present company has determined to push this part of the work by digging the canal to completion.

Capt. Hinton will probably have charge of the operation of the dredges. It is also intimated that further operations will be conducted after the canal is made navigable between this port and the Halifax River.—St. Augustine Record.

Mrs. J. A. Douglass, the milliner, still has some hats on hand, street hats, walking hats and all kinds of trimmings. Call early before they are all closed out.

PORT ORANGE ITEMS.

Doctor Morden, of Daytona, was in our village calling on friends.

E. S. Robertson is preparing to build a large sail boat to use next winter as an excursion boat.

Taylor McDaniel is having an addition built to the cottage that they are occupying on Dunlawton avenue.

Next Sunday afternoon at three o'clock in Grace church Rev. Arnold, instead of preaching a sermon, will tell us what has, and is being done in Africa by the missionary societies.

Geo. McDaniel has improved the appearance of his home in Blake very much by adding a porch to the front of the house and taking away the kitchen that was at the north end.

E. Brolin has sold the hull of the launch that he used last winter and is going to build a larger and more convenient hull to put his engine in so as to be prepared for next winter's tourists.

We are told that Frank Leech is going to build a home on Ridgewood opposite the Bosson place in Blake. Mr. Leech has lived on the Halifax for many years and in old times his house was the post-office.

COMMISSIONERS MUST ACT.

Judge Minor S. Jones has issued a mandamus commanding the county commissioners to assemble at DeLand today, for the purpose of examining the petition presented at the last meeting asking that an election be called to decide whether the sale of intoxicating liquors, wines and beer shall be prohibited in Volusia county. The Judge, in his greeting to the commissioners, said that it was the duty of board to consider the matter at the last meeting, as July 1st is the latest date upon which the election can be held under the law, and that to wait until the July meeting would make it impossible to have the election as it must be called within sixty days after the presenting of the petition.

The following is the program of the union temperance meeting to be held at the First M. E. Church tomorrow evening at seven o'clock.

SHAD FRY DISTRIBUTED.

Fish Commissioner J. Y. Detwiler passed through here Sunday afternoon on his way home to New Smyrna from Jacksonville, where he went last week to meet the United States Government car of 3,450,000 shad fry for distribution in Florida waters.

The car received last week made the fifth car sent to Florida by the Government since 1898, each car averaging 3,000,000 fry for distribution in the various water courses. Through the efforts of Commissioner Detwiler considerable expense has been saved the State, as the rate of 20 cents per mile over the railroads has not been charged, owing to his efforts in influencing free transportation over the various roads. The distribution of the 3,450,000 shad fry was made as follows:

Jacksonville.....	637,000
In Oklawaha river, beyond Tallahassee.....	637,500
In Tomoka river, at Tomoka.....	225,000
In Little river, near Quincy.....	637,500
In Aucilla river, near Aucilla.....	637,500
In Spruce Creek, at Spruce Creek.....	225,000
In St. Johns river, at Palatka.....	150,000

It was intended to make consignments to Palmetto, Alafia river and Carrabelle, but a delay of twelve hours, due to an accident to the car at Jacksonville, made it imperative to plant the fry at once, as the young fish had almost already absorbed the egg sacs, and it was necessary to make the distribution as rapidly and expeditiously as possible. Spruce Creek and Tomoka river were the only water courses in the East Coast to be supplied, the Spruce Creek distribution being as far south on the East Coast as any distribution has ever been made.

The distribution of 150,000 in the St. Johns river at Palatka was a special assignment, this extra amount having been sent for this special point.

The 3,450,000 shad fry were shipped from the hatcheries at Washington Park, N. J.; Havre-de-Grace, Md., and Gloucester, N. J.

This consignment will probably be the last that the Government will send to this State, as the State hatchery will probably be in operation before another season. This hatchery, for which \$15,000 has been appropriated, will probably be built and operated at or near Sanford, and in addition to shad the propagation of sturgeon will be undertaken on a large scale, these two fishes probably being the most important to receive attention and care at the hatchery.

It required the attention of Commissioner Detwiler and five men assistants to distribute the 3,450,000 shad fry, which was rapidly and successfully accomplished.

Kost & Gwinner, the painters and paper hangers, are artists in their line, and you will make no mistake in consulting them.

An Ordinance to Regulate the Acceptance of Private Ways by the City of Daytona.

Be it ordained by the Common Council of Daytona:
That henceforth no private alley, by-way, road, street or avenue, platted or unplatted, shall be accepted by the City as a municipal thoroughfare, unless thirty or more feet wide.
Passed first reading May 12, 1902.
Passed second reading May 28, 1902.
Passed third reading June 9, 1902.
Approved:
J. W. WILKINSON, Clerk
JOHN B. PARKINSON, Mayor
CHAS. L. SMITH, Pres. of Council.

NEWS FROM ORMOND.

Mrs. Wm. Watson was visiting friends here Tuesday.

We learn that Mr. Knox has been ill at his home on Mound Grove.

Mrs. Schuler has rented the Mason cottage and will move in this week.

Dr. Pinkerton and son, Colby, also Mrs. Price and family, left Tuesday for Mr. Pleasant, N. H.

Mrs. Tupper, with Miss Louise Tupper are spending several days at the Price cottage on the beach.

Some of the people in our vicinity are beginning to feel safer, as the date for the sinking of Florida has passed.

James Carroll and daughter, Lucile, left Monday for Connecticut; the latter will enter school at New Haven this fall.

The Children's Day exercises on Sunday were very good. The church was beautifully decorated under the supervision of Mrs. James Stanton, Jr., and the exercises by the Sunday school, "The Red Cross Crusade," was well rendered; some of the children were dressed in costume, representing different countries. The success of the occasion is due to Messrs. Shaw and Price, and Miss Jennie Tupper, who drilled the little ones. A collection of \$10 was taken up for the Sunday school society.

STATE GETS OVER \$3,000,000

The House of Representatives at Washington has adopted, finally, the conference report on the river and harbor bill. The State of Florida is interested to the extent of nearly two and a half millions of dollars, the items being as follows:

St. Johns river, Jacksonville to ocean,	\$1,300,000.
Miami, \$300,000.	
East Pass, Carrabelle, \$20,000.	
Key West, \$100,000.	
Hillsboro Bay, \$150,000.	
Sarasota Bay, \$5,000.	
Apalachicola Bay, \$10,000.	
Pensacola, \$220,000, out of which \$150,000 is to be spent for dredge to be used at Pensacola, Apalachicola and Carrabelle.	
Snagging dredge for general use in Florida waters, \$35,000.	
Inside route between Savannah and Fernandina, \$15,000.	
Indian River, \$2,000.	
Volusia Bay, \$2,000.	
Grange river, \$9,500.	
Apalachicola river, \$6,000.	
Kissimmee river, \$8,000.	
Ocklawaha, \$2,000.	
Choctawhatchee, \$16,000.	
Escambia and Conecuh, \$5,000.	
Upper Chipol, \$2,000.	
Water hyacinths, \$50,000.	
Crystal, Manatee, Anclote, Suwanee and Withlacoochee rivers, \$35,000.	
Withlacoochee alone, 25,000.	
Orange Mills Flats, 30,000.	

This makes a total of 2,377,000, exclusive of surveys which are authorized on the Manatee at St. Andrews Bay, Charlotte Harbor, Hillsboro Bay, Blackwater Bay, Volusia Bay, Naples Harbor and Key West.
